Wireless Monitoring

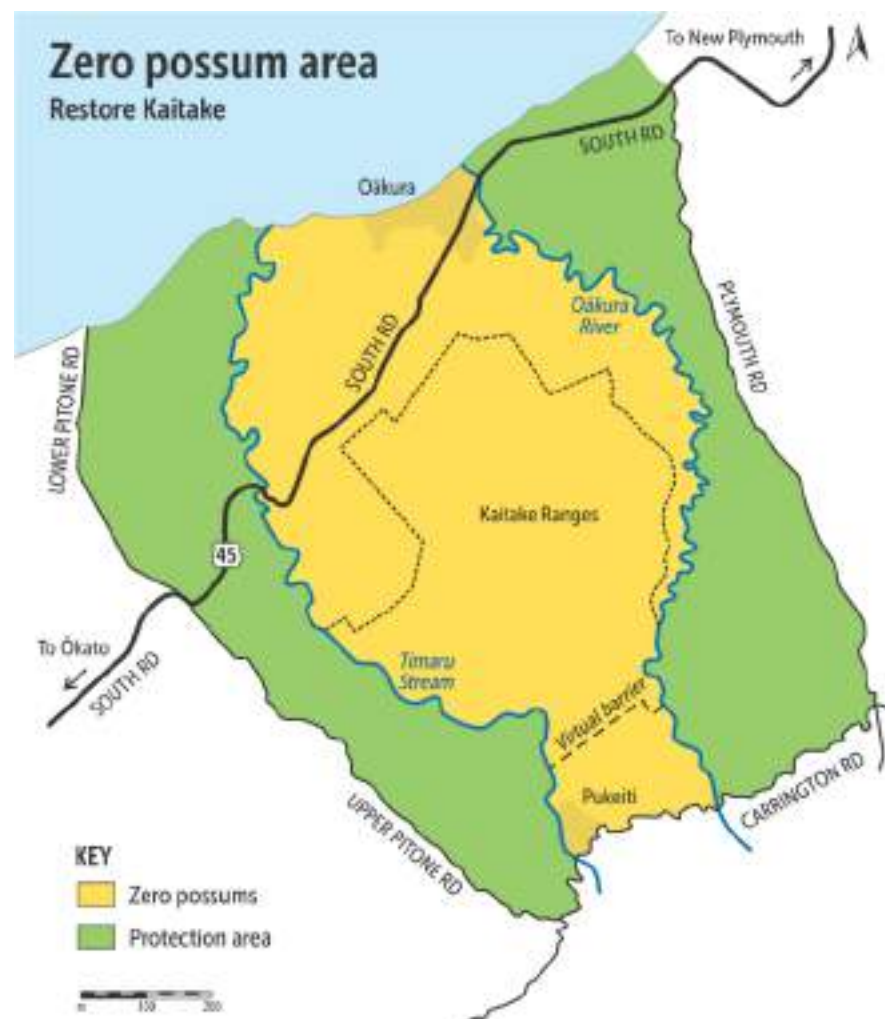

Towards Predator-Free Taranaki

Restore Kaitake

- Strength in the collaboration between many parties
- Driven by a common goal of restoring a healthy ecosystem

Towards Predator-Free Taranaki

Community Engagement

- Fantastic attendance at Restore Kaitake event
- Mainly due to the support of the Kaitake Community Board

Towards Predator-Free Taranaki

Oakura Town

- Public campaign calling for suspected possum presence to be reported.

Find out
about becoming a

Community Champion

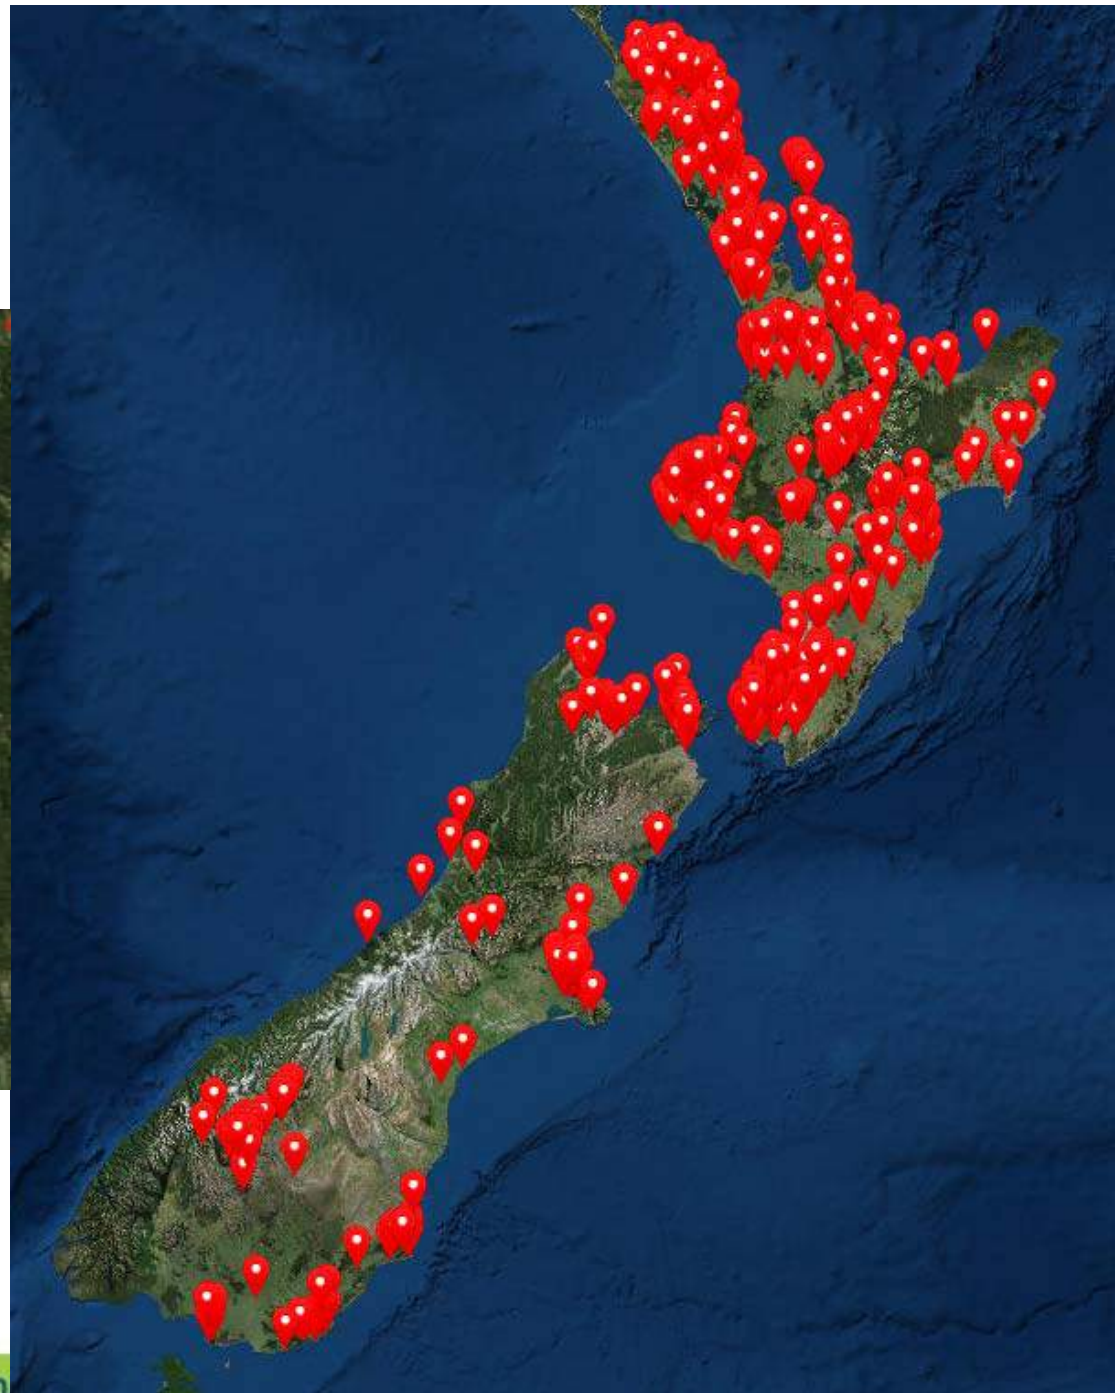

Community Champions
are volunteer ambassadors helping
restore their suburb or neighbourhood's
biodiversity. These roles will form an
important part of the region-wide project
Towards Predator-Free Taranaki, helping
empower and enable other residents to
restore, native wildlife and plants by
trapping in their backyard.
