Northpower Fibre UFB orders lift 260% in Whangarei

Published on June 26th 2014, 11:35am

Orders for Northpower Fibre connections have almost tripled since the completion of the Whangarei ultra-fast broadband network last month.

And a 260% surge in orders to connect to the Northpower Fibre network in just one month has Northpower asking customers to remain patient while they are hooked up to the network.
