Introducing our work programme – *Water management*

A large center pivot irrigation system is shown in operation, with multiple wheels and long metal arms extending across a brown field. The system is spraying water, creating a misty atmosphere. In the background, there are rolling green and brown hills under a cloudy sky. The foreground features a grassy field with a wire fence and some fallen logs.

Themes from both audits

A scenic landscape photograph featuring a long wooden pier extending from the foreground into a calm lake. The pier is made of weathered wooden planks and has several vertical wooden posts along its length. A single white seagull with orange legs stands on the pier in the lower center. The lake's surface is still, reflecting the sky and the surrounding mountains. In the background, there are rolling mountains with some snow-capped peaks under a cloudy sky. The overall mood is peaceful and contemplative.
